Mr. Rick Snyder  
U.S. Rubber Recycling, Inc.  
1231 South Lincoln  
Colton, CA 92324

AQS Report: 15873-01 and -02

Dear Mr. Snyder:

Thank you for choosing Air Quality Sciences, Inc. (AQS), an ISO 9001:2000 registered and ISO 17025 accredited IAQ company, for your product testing needs. Enclosed are final reports, which present the test protocols and resulting data.

The flooring sample tested, **9mm QuietSound II Recycled Underlayment** has low TVOC, formaldehyde and total aldehyde emissions. Modeling estimates for this sample indicate that predicted exposure concentrations resulting from your product would likely meet the GREENGUARD criteria. A table with the modeling results is also included with this letter.

We appreciate this opportunity to assist you. If you have any questions or wish to discuss your results, please feel free to contact our Product Evaluation Group at (770) 933-0638 or (800) 789-0419.

Sincerely,

A handwritten signature in black ink that reads "Stephany I. Mason".

Stephany I. Mason, Ph.D.  
Technical Director
